

**WISCONSIN AIR NATIONAL GUARD
ACTIVE GUARD RESERVE (AGR) VACANCY ANNOUNCEMENT**

ANNOUNCEMENT NUMBER: 23-030 ANG

OPENING DATE: 4 January 2023 **APPLICATIONS WILL BE ACCEPTED UNTIL:** 11:59PM ON 3 February 2023

POSITION TITLE: Bioenvironmental **AFSC REQUIREMENTS:** 4B0X1 **SKILL LEVEL REQUIRED:** 5

MINIMUM GRADE: E4 **MAXIMUM GRADE:** E7

UNIT/LOCATION: CRTC Volk Field, Camp Douglas, WI

AREA OF CONSIDERATION: Open to anyone eligible to join the WI ANG AGR program

APPOINTMENT FACTORS

1. Initial tours will be 3 years. Follow-on tour lengths may be from 1 to 6 years per ANGI 36-101.
2. Non AGR Person receiving a federal military retirement or retainer pay are not eligible.
3. Must meet the physical requirements of DAFI 36-2905, prior to being placed on AGR tour.
4. Members who are not suitable for Career AGR may be considered for an Occasional Tour.
5. Military grade will not exceed the maximum authorized grade on the unit manning document.
6. Must meet all AGR requirements of ANGI 36-101 and AFSC requirements of AFECDD/AFOCD.
7. IAW ANGI 36-101, paragraph 5.10, applicants should be able to complete 20 years of active federal service prior to Mandatory Separation Date (MSD). Individuals selected for AGR tours that cannot attain 20 years of active federal Service prior to reaching mandatory separation must complete a Statement of Understanding contained in Attachment 3 of ANGI36-101 and obtain TAG waiver approval prior to starting AGR tour.
8. IAW ANGI 36-101, paragraph 6.6.1., members should remain in the position to which initially assigned for a minimum of 24 months. TAG may waive this requirement when in the best interest of the unit, State, or Air National Guard.
9. Hiring of an E-8/9 or O4+ is contingent on controlled grade availability.
10. IAW ANGI 36-101, paragraph 5.7, an individual must not have been previously separated for cause from active duty or previous Reserve Component AGR tour.

BRIEF DESCRIPTION OF DUTIES:

Conduct preventative medicine studies in support of base vulnerability assessments (i.e. water and toxic industrial chemicals/toxic industrial materials). Coordinate with the base Anti-Terrorism/Force Protection Office, Civil Engineering, Security Forces, and other applicable Air Force Medical Service counterparts to locate and identify critical infrastructure and components and develop a mitigation plan. Use existing sources of intelligence to identify potential future threats. Assess overall vulnerabilities and provide recommendations to commanders to minimize health risk(s) to base personnel and mission. Identify and approve potable and non-potable water sources. Analyze local surface and ground water sources to determine the potability for both drinking and recreational purposes. Address health risks associated with non-potable water and communicate effective solutions to address potential health concerns. Execute Occupational & Environmental Health Site Assessments. Collect site-specific data to characterize exposure pathways and levels to chemical, physical or radiological contaminants while in garrison and deployed. Identify occupational & environmental health hazards and risks that may negatively impact health, human performance, and environmental health quality and communicate/advice the commander(s) and key site planning leadership of assessment results for use in site selection and site bed down planning in all operational environments. Document occupational & environmental health site assessment findings in the approved occupational & environmental health-management information system. Respond to accidents, natural disasters, and attack by hostile forces that may result in exposure(s) to occupational & environmental health threats. Perform on-site health risk assessments within potential exposure zone(s), communicate health risk(s) to the commander, and document information regarding exposure(s) in an approved occupational & environmental health-management information system. Identify health hazards to all personnel residing and/or working on the installation. Anticipate and recognize actual or potential chemical, biological, radiological, nuclear and physical health threats. Collaborate with civil engineering and other base personnel to locate and identify hazards from occupational, environmental, and recreational sources. Analyze and evaluate actual or potential health threats using available equipment. Coordinate with certified laboratories to collect, preserve, package, and ship samples

associated with an emergency response in garrison or while deployed. Conduct post-exposure investigations. Use analytical or predictive exposure modeling data to mitigate or eliminate health risks during future operations or other similar and concurrent operation by making recommendations to commanders. Provide control recommendations to mitigate or eliminate occupational & chemical, biological, radiological, or nuclear health threats. Apply the hierarchy of hazard control- first apply/use engineering controls, then apply/use administrative controls and lastly, recommend personal protective equipment. Determine protective measures in chemical, biological, radiological, and nuclear operating environments. Provide relevant threat control recommendations to the commander with respect to real-time and future operations. Consult with shelter management teams to determine the adequacy of collective protection for controlling health threats and perform health risk assessments to determine when to release personnel from collectively protected facilities. Associate exposure(s) with affected personnel. Document exposures of affected individuals and at-risk populations using the approved occupational & environmental health- management information system (i.e. the Defense Occupational and Environmental Health Readiness System in order to establish an individual longitudinal exposure record). Participate in risk management/communication. Advise senior leadership and affected communities on health risks associated with operations and missions, the environment, and recreational activities. Effectively communicate on health effects, control measures, and outcomes.

SPECIALTY QUALIFICATIONS:

Knowledge. Knowledge is mandatory of basic and applied mathematics, basic chemistry, physics and computer usage, occupational & environmental health (i.e. industrial hygiene, drinking water surveillance, and radiological health), medical administration, and bioenvironmental engineering aspects of medical readiness.

Education. For entry into this specialty, completion of Algebra I, chemistry, biology, and English composition courses in high school are mandatory. Completion of high school courses in Algebra II and physics are desirable.

Training. N/A

Other. For entry, award, and retention of this specialty: No record of acrophobia or claustrophobia. Ability to speak distinctly. Must possess a valid state driver's license to operate government motor vehicles in accordance with Air Force Instruction 24- 301, *Vehicle Operations*. Normal color vision and depth perception as defined in Air Force Instruction 48-123, *Medical Examinations and Standards*. Must maintain local network access IAW AFI 17-130, *Cybersecurity Program Management* and AFMAN 17-1301, *Computer Security*. Ability to wear a 40-pound air pack while carrying 40 pounds of equipment in a totally encapsulating chemical protective suit. Medically qualified in accordance with Air Force Instruction 48-137, *Respiratory Protection Program*.

APPLICATION REQUIREMENTS:

Interested applicants must submit the following documentation to be considered for interview. Any missing items are encouraged to be documented with an explanation in the cover letter included in the application.

APPLICATIONS WILL INCLUDE (All documents must be personally identifiable and must include date if required)

- ☐ Cover letter with Job Announcement Number and Position Title for which you are applying, current Military Status (AGR, Technician, Traditional, Active Duty), along with contact information (i.e. Phone numbers and an e-mail address).
- ☐ **NGB Form 34-1** (Application for AGR Position) dated 20131111 (**must be signed and dated**). Manually signed copy accepted. Digital signature may fall off when combining PDF files. Double check prior to sending packet.
- ☐ **Record Review RIP** (**NOT point credit summary or Career Data Brief**) complete and current. Other Service Components submit appropriate individual personnel information printout. This is used to verify AFSCs, aptitude scores, position status, time in service, time in grade, etc. This can be pulled from vMPF.
- ☐ **Current Fitness Report**. Current Fitness report from myFitness in pdf format
- ☐ **AF Form 422** Current (within 12 months), Physical Profile Serial Report. Other Service Components submit medical documentation that includes PULHES score. If any PULHES are a "3", a statement indicating that individual is Worldwide Deployable needs to be submitted.

- ☐ **SF 181-** (Race and Ethnicity Identification). Form is required for packet. However, completion is voluntary. Please see further instructions on the form.
- ☐ All Other Service Component applicants must have their **ASVAB** raw scores converted to Air Force ASVAB scores and include them in a letter from either a Recruiter or MEPS Counselor.

NOTE:

1. Failure to provide all the required documents will result in being disqualified.
2. Applicants must sign NGB Form 34-1; failure to sign the form will result in being disqualified. Please ensure 34-1 reflects Tour Announcement number and current telephone number.
3. If selected for the job, member must have a current passing fitness and an AGR qualified AF Form 422 Signed by the State Air Surgeon prior to being placed on AGR tour.

APPLICATION PROCEDURES

Interested applicants who meet the eligibility criteria may apply by emailing all required documents, as one (1) pdf to MSgt Kasten at melanie.kasten@us.af.mil and SSgt Donais jennifer.donais@us.af.mil. Portfolio formats are accepted. The file and email subject line should read as: LastName, FirstName_#_JobTitle (i.e. Doe, John_22-001_Personnel). An email will be sent to confirm receipt of application. Feel free to call Comm (608) 242-3132 or (608) 242-3135 to verify receipt of your application. Applications will not be reviewed before the closing date.

HOW TO COMBINE/MERGE A PDF:

1. Click Tools
2. Click Combine Files
3. Drag and drop your PDFs into the PDF combiner.
4. Rearrange individual pages or entire files in the desired order.
5. Add more files, rotate or delete files, if needed.
6. Click 'Merge PDF!' to combine and download your PDF

HOW TO CREATE A PORTFOLIO:

1. Click Tools
2. Click Create PDF
3. Click Multiple Files
4. Click Create PDF Portfolio and Next
5. Drag and drop your PDFs into the PDF combiner
6. Rearrange individual pages or entire files in the desired order
7. Click 'Create!' to combine and download your PDF
